

# NEED A DOCTOR?

*Take This Number*

# 336 802-2700

Finding the right physician  
to trust with your family's health and well-being  
isn't always easy.

You want to be confident that they are well-trained, have the extensive experience  
in their area of specialty, and stay current through continuing education  
and board certification.

**When you call 336 802-2700**, one of our specially trained Patient Care Advocates will help you determine which Cornerstone doctor will be the best choice for you and your family.

With over 200 doctors and 75 practices in 13 cities across the Triad, the Cornerstone Patient Care Advocates will match you up with the right doctor—primary care physician or specialist—to meet your personal needs and preferences. The relationship you build with your doctor is a deep and long-term experience that builds over time as you and your family travel through the ages of your life.

Our Patient Care Advocates are available to help you find a doctor, address any questions and concerns, and welcome feedback about your experience with Cornerstone. This kind and compassionate team of health care professionals provides an outreach service from every Cornerstone provider to every patient.

*Call 336 802-2700 and take the first step to make Cornerstone Health Care your medical home.*
